A&A Painting News

This year, A&A Painting Ltd had the privilege to work on this gorgeous home situated in Christina Lake.

Christina Lake. A Glance At The Past

Reminiscing Time

Pictographs located at various points along the north-east lakeshore are evidence of these first inhabitants, and offer a tantalizing glimpse into a past.

Christina Lake first became a recreational area for day-trippers from Grand Forks who were able to make use of the new railroad to visit the lake.

As you drive on the highway today, Christina Lake appears quiet and secluded. However, the frantic energy of the prospecting era and the expansive optimism of the years surrounding the turn of the century have not been lost and glimpses of the old days remain for those who care to look. Christina Lake remains one of British Columbia's best kept secrets.

Awarded Best of Business for 5
consecutive years!

Tips for Choosing Interior Paint Colors

The easiest way to choose the best interior paint colors is to start with colors you love. When you start with the colors you love, you are not bound by the traditional color schemes for a particular decorating style. Using your own favorite color as your base color, you can use it to create a color scheme around it. Your favorite colors can be the perfect inspiration for your new color palette. Look Outside for Ideas. Do your homework before shopping!
